Every good housekeeper wishes to say that there is not a single fly in her house. Now, as we all know to our annoyance, flies are very troublesome in these hot days. Here are three good receipts which can be recommended as exterminators of the dipterous pests. The peculiar virtue of these ingredients is that no poisonous ingredient is used in their composition: Boil together linseed oil and rosin until the compound becomes thick, or boil three parts of rosin and four parts of rapeseed oil together until a sticky mass is produced, er, again, boil to a thick paste one pound of rosin, three and one-half ounces of molasses and the same quantity of linseed oil. Any one of these compounds spread on thick sheets of brown paper are grass-green velvet, and the bonnet and scattered over the tables and shelves will effectually exterminate files,
